Summary

Final-year B.Tech Computer Science student with experience in Python, SQL, Data Analytics, Machine Learning, and Generative AI. Built data-driven applications involving predictive analytics, RAG systems, and business intelligence dashboards. Seeking Data Engineering, Data Analytics, or AI/ML opportunities in product-based companies

Skills

- **Languages:** Python, SQL, C++, JavaScript, HTML, CSS
- **Frameworks:** React.js, Node.js, TailwindCSS
- **AI/ML:** OpenCV, MediaPipe, PyTorch, Scikit-learn, TensorFlow, Computer Vision
- **Tools & Platforms:** MS Power BI, Git, Tableau, REST API, Google Analytics, Excel
- **Other:** REST API, Google Analytics, Excel

Internship

Growth Expert — **Ahmedabad**
Cloud Intern — *07/2026 – 10/2026*

- Gained hands-on experience with cloud computing concepts, infrastructure, and cloud service management.
- Worked on cloud technologies and explored deployment, networking, and infrastructure management practices.

V&V Comptech Systems Pvt. Ltd. — **Navi Mumbai**
UI/UX Design Intern — *06/2025*

- Applied core UI/UX design principles to create user-centered interface designs and improve user experience.
- Designed wireframes and interactive prototypes using Figma to visualize user flows and interface layouts.

Projects

1. **Mario Gesture Game** — **05/2026**
   - Developed a gesture-controlled TOTO game using MediaPipe and OpenCV for real-time hand tracking and recognition, enabling smooth, touch-free gameplay without any physical controller.
   - Mapped hand gestures to real-time game actions such as jump and move, improving responsiveness and delivering an engaging, intuitive user experience.
2. **IPL Winner Prediction System** — **04/2026**
   - Built a machine learning model to predict IPL match winners using historical match data and team statistics, applying classification algorithms to generate accurate match outcome predictions.
   - Performed data preprocessing, feature engineering, and exploratory data analysis to identify key patterns, improving the model's overall accuracy and reliability.
3. **Shoplane – E-commerce Website** — **03/2026**
   - Developed an e-commerce website with a product catalog, shopping cart, and secure checkout functionality, providing users with a complete and seamless online shopping experience.
   - Implemented a responsive UI and optimized the overall user experience across multiple devices, ensuring smooth navigation and consistent performance on all screen sizes.
4. **Portfolio Website** — **07/2025**
   - Built a responsive portfolio website using HTML, CSS, and JavaScript with a clean and modern design, showcasing projects and skills in a visually appealing manner.
   - Designed an interactive UI and smooth navigation to improve overall usability, making it easy for visitors to explore content and learn more about my work.

Education

Indus University — **Ahmedabad, Gujarat**
B.Tech – Computer Science Engineering | CGPA: 9.00 — *06/2023 – 06/2027*

P.G Public School — **Nandurbar, Maharashtra**
Higher Secondary Education | CBSE | 59.00% — *2023*

P.G Public School — **Nandurbar, Maharashtra**
Secondary Education | CBSE | 79.00% — *2021*

Certifications

- NLP Foundation – AWS Academy
- Machine learning Foundation – AWS Academy
- Generative AI with Large Language Models – Coursera
- Retrieval-Augmented Generation (RAG) – Coursera
- Augmented Generation (RAG) with Embeddings Vectors – Coursera
- Data Analytics Job Simulation – Deloitte
- Python Programming – Beginner to Master – Udemy
- CyberSecurity – Deloitte
