Summary

Motivated B.Tech Computer Science student with strong interest in Software Testing, QA Automation, and Python development. Familiar with REST APIs, debugging, test case design, and software quality assurance concepts. Looking for opportunities to contribute to product quality through automation and testing.

Skills

- **Languages:** Python, C++, JavaScript, HTML, CSS
- **Frameworks:** React.js, Node.js, TailwindCSS
- **Tools & Platforms:** MS Power BI, Git, Selenium, JIRA
- **Other:** REST API, Google Analytics, Excel, Linux Basics, Software Testing, API Testing

Education

Indus University <i>B.Tech – Computer Science Engineering CGPA: 8.30</i>	Ahmedabad <i>06/2023 – 06/2027</i>
P.G Public School <i>Higher Secondary Education CBSE 60.00%</i>	Nandurbar <i>2023</i>
P.G Public School <i>Secondary Education CBSE 79.00%</i>	Nandurbar <i>2021</i>

Certifications

- Learn Python Programming – Beginner to Master – Udemy
- Data Analytics and Job Simulation – Deloitte
- CyberSecurity – Deloitte

Projects

1. **IPL Winner Prediction System** | Link 04/2026
 - Built a machine learning model to predict IPL match winners using historical match data.
 - Performed data preprocessing, feature engineering, and exploratory data analysis.
2. **Shoplane – E-commerce Website** | Link 03/2026
 - Developed an e-commerce website with product catalog, shopping cart, and secure checkout functionality.
 - Implemented responsive UI and improved user experience.
3. **Stock Analysis** | Link 01/2026
 - Analyzed historical stock data to identify market trends and performance patterns.
 - Built interactive dashboards and visualizations to present key financial insights.
4. **Portfolio Website** | Link 07/2025
 - Built a responsive portfolio using HTML, CSS, and JavaScript.
 - Designed interactive UI and smooth navigation for improved usability.

Strengths

- Strong analytical and debugging skills
- Quick learner with problem-solving mindset
- Attention to detail in software testing

Extracurricular Activities

- Participated in coding competitions and hackathons solving real-world problems
- Contributed to open-source projects on GitHub
- Volunteered to teach basic programming to students
